

ViewPoint Capture – LADWP Video Feature Release Notes

Configuration of the Video Capture feature for LADWP based on stakeholder direction

1. Video Length Configuration

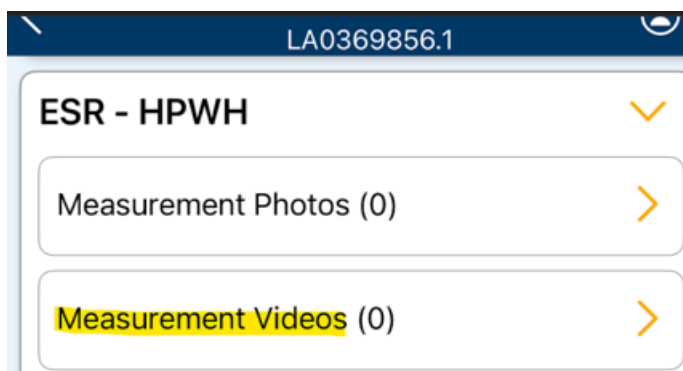

- Videos are configured to allow **up to 3 minutes per recording**.
 - This update was made to support longer walkthrough scenarios where shorter durations (e.g., 45 seconds) were not sufficient.
-

2. Multiple Video Capture

- Each section supports **capturing multiple videos**, as requested to document different areas or steps within a site visit.
-

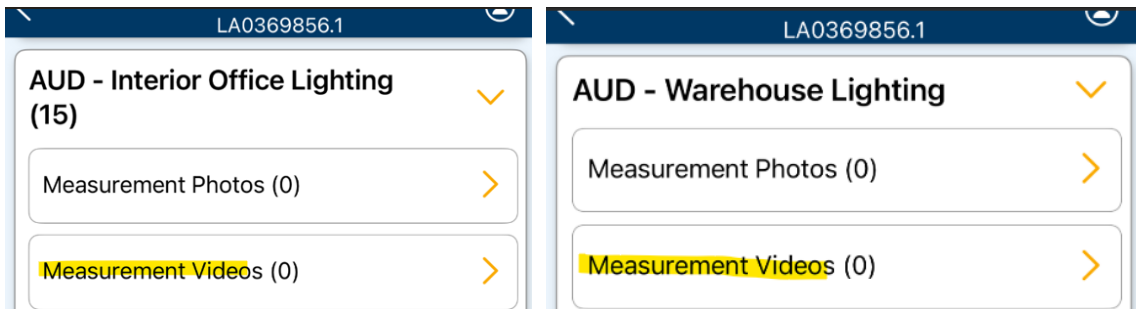

3. Placement of Video Sections

- Video capture is implemented **within each relevant category/section** based on operational feedback.
- **ESR – HPWH:**
A '**Measurement Videos**' section has been added under the ESR - HPWH photo sections. This was requested to be the only video section for ESRs-

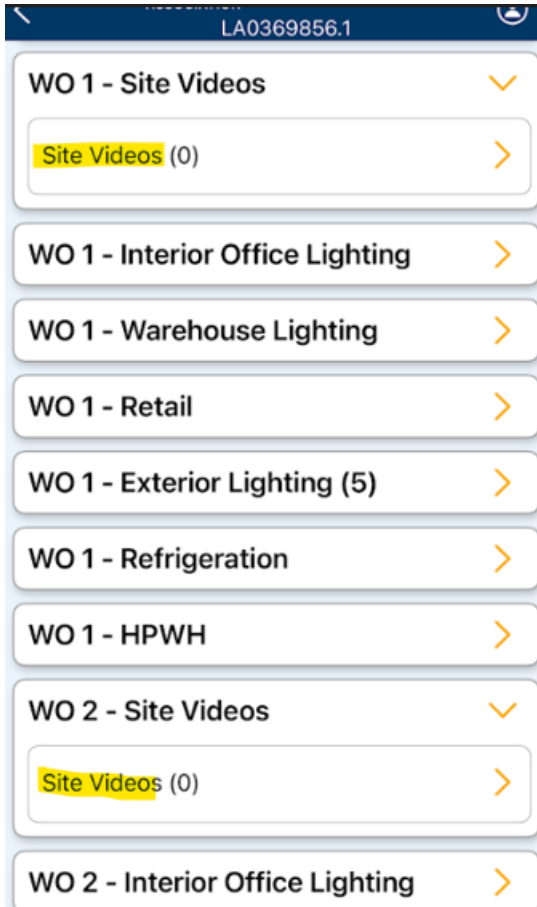

- **AUD Sections:**

A '**Measurement Videos**' section has been added under each AUD section below
Measurement Photos-

- **Work Order (WO) Sections:**

a '**Site Videos**' section has been added to all WO sections

4. Final Deployment Status

- The video feature has been **successfully deployed to production** with the above configurations.

Deployment confirmation sent on 5/4/2026

Hi Team,

This is deployed to production. Each section allows videos up to 3 min in length. Multiple videos can be captured.

Best,

Alyssa Castro | Technology Support Specialist
